

Submitting an assignment using the Submit button

When submitting an assignment which has the "Submit assignment" button turned on, it is important to click this button, otherwise your assignment will not go to your tutor for marking.

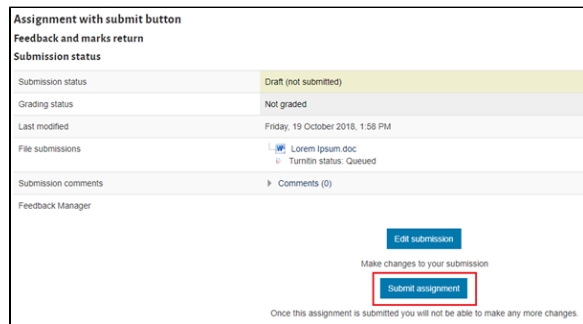

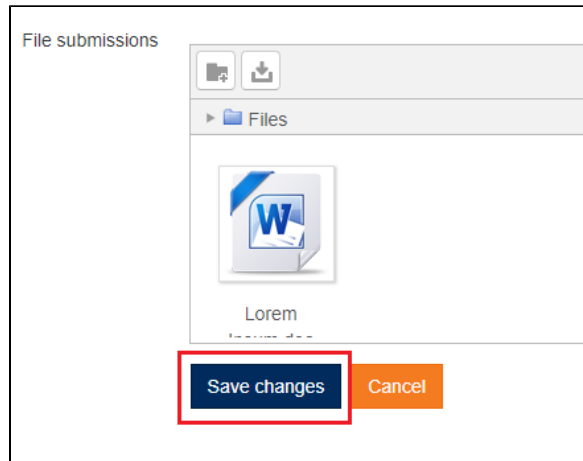

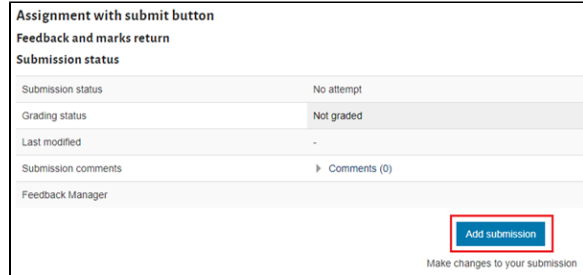

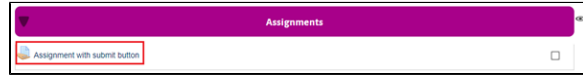

Instructions

Navigate to your class page and click on the Assignment you wish to upload

Click the "Add submission" button

Upload your file by dragging and dropping or using the "Add file" button and click "Save changes"

In order to submit your assignment for marking you MUST click "Submit assignment". Until you do this you can click "Edit submission" to make changes to your draft document – you may have uploaded to check your Turnitin score for example. After clicking "Submit assignment" the system will consider this your final submission rather than a draft and you won't be able to make any further changes.
