

How to turn on Authentication for a Zoom meeting activity in Myplace?

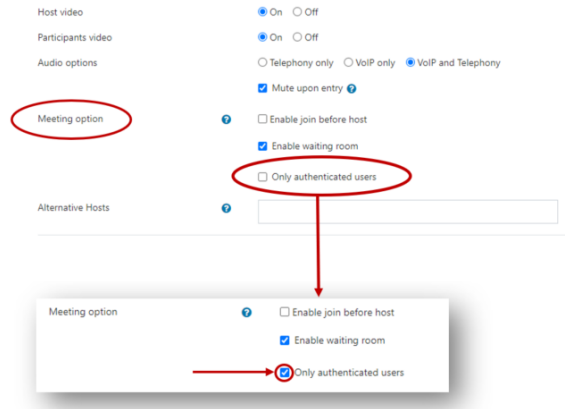

As a member of University Staff or as a Student, a Zoom account is provisioned for you using your University Email Address. Enabling Authentication allows hosts to restrict meeting participants to logged-in users only. This will restrict your participant list to verified users (users with Strathclyde University account).

Enabling Authentication

To enable only authenticated users can join meetings:

- Go to your class site.
- Add a **Zoom Meeting activity** or if you have already set up your meeting select **Edit settings** from the dropdown menu.
- In the activity **Settings** under **Meeting option**, check **Only authenticated users**.

Note: If a participant tries to join the meeting in Myplace and is not logged into Zoom with the university account, they won't be able to join the meeting.

- If you clicked on **Save and Display** you will see in the details of the meeting that Only authenticated users is enabled.

Start Time	Friday, 27 November 2020, 2:47 PM
Duration (minutes)	1 hour
Passcode Protected	Yes
Passcode	117717
Join link	https://strath.zoom.us/j/91211798113
