

How do I invite others to join a Meeting?

Instant Meeting Invite

During a meeting, you can invite people to join the conference by clicking on the **Invite** tab in your meeting controls.

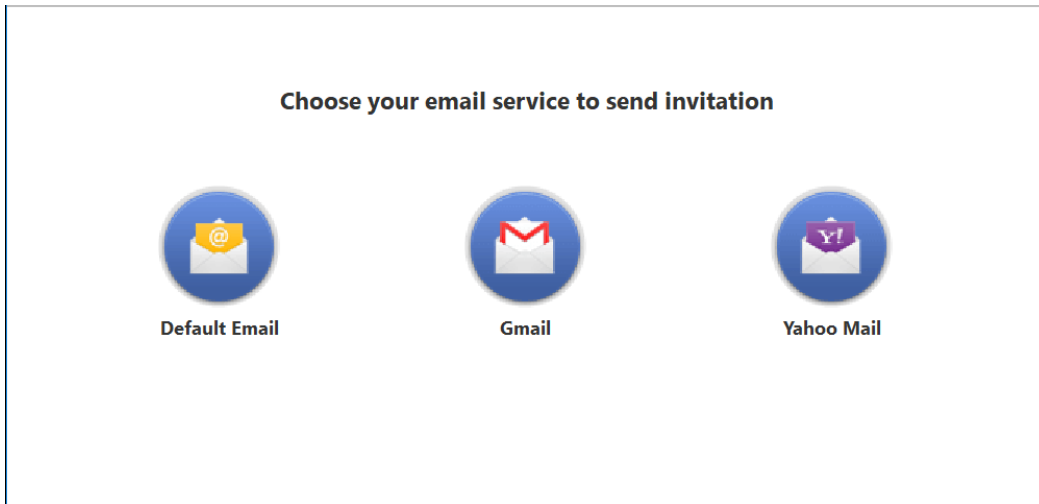

Invite by email:

After clicking on **Invite** in the meeting controls, click on one of the three email options.

- **Default Email** will open up your default email application (ex. Outlook, iCal, etc.)
- **Gmail** or **Yahoo Mail** will open a web browser and will prompt you to log you in with your Yahoo or Gmail account. If you are already logged in, a new email will be composed automatically with the meeting information included in the body of the email.

Copy URL or copy invitation:

Click **Copy URL** or **Copy Invitation** if you want to send your instant meeting information elsewhere. Copy URL will copy the join link and Copy Invitation will copy the full invitation text. You can then paste it using ctrl-V on a PC, cmd-V on a Mac, or by right-clicking and choosing Paste.

Using H.323/SIP Call-out:

Next to **Time**, there are options for adding to your calendar.

- If you click on **Google Calendar** or **Yahoo Calendar**, it will create a calendar event automatically in the specific email service you choose.
- If you click on **Outlook Calendar**, this will generate a .ics file that you import to your Outlook calendar.
