

# Getting Help With Myplace

All student enquiries should be directed to [help@strath.ac.uk](mailto:help@strath.ac.uk).

For staff there are a number of ways to get help with Myplace.

## Myplace Support Site

The Myplace support site has information relating to both staff and student activities on Myplace, how to set them up and guidance.

Key guidance for academics can be found on the [Academic Continuity Guidance](#) page, whilst more general staff information on the [Staff Support Homepage](#).

## Myplace Support Team

For more complex issues or guidance you can contact Myplace Support, either via the [Help Desk's portal](#) or via [help@strath.ac.uk](mailto:help@strath.ac.uk)

## Staff Training

If you are looking for staff development activities, then the Education Enhancement team and OSDU run a series of training sessions that you can book on to or offer self-directed study relating both to Myplace and wider teaching with technology topics.
