

Weighting

These pages support the management of weighting in the gradebook.

Support

```
<th>Myplace 2019</th>
<td style='text-align: center;'><ac:
emoticon ac:name='tick' /></td>
✔ Indicates feature is supported in
this version onwards, unless
specifically indicated ✘ Indicates
feature is not supported in this
version
```

Contents

[Weighting Activities Within a Category](#)

This support page describes how to weight activities within a category. This is only necessary if you have more than one activity within a category. It also highlights how categories can be weighted.

[Gradebook Weightings](#)

This support page describes how to manually weight categories in the gradebook.

[Using Grade Calculations](#)

Grade calculations may be necessary as an alternative to the assessment regime or weighting when setting up a class gradebook in Myplace.

[Rounding results in the Gradebook](#)

This page describes how to round off your results in the gradebook.
