

Advanced Marking

These pages support the use of advanced marking.

Contents

Marking Guide

This article will show you how to create, use and re-use a marking guide.

Marking Rubric

This article will show you how to create, use and re-use a marking rubric.

Allowing Multiple Attempts on an Assignment

This article will introduce the **Attempts** feature on the Assignment activity. This lets you specify how many attempts a student may make on an assignment and the conditions under which they may gain a further attempt.

It will also cover accessing a previous attempt's submission.

Enabling Multiple Attempts
