

Manual Student Enrolment on a Class

In most cases student enrolments **should not be manually managed**. PEGASUS Class Codes or Programme Codes are preferred and will be kept in sync with the student's official curriculum.

There are cases where it is necessary to manually enrol a student into a class:

1. Student enrolments are being entirely manually managed (see [Add Informal Roles to a Class](#))
2. Where a student has withdrawn from a [course](#), but you need to access details of any completed work.

Adding a Manual Student Enrolment (Suspended Enrolment)

1. Access the **Enrolment Methods** page for the class via **Class Administration > Users > Enrolment Methods**

12 > Users > Enrolment methods

Adding a Manual Student Enrolment

In cases where the student does not already have a suspended enrolment method, the you should enrol them as an informal role as detailed in [Add Informal Roles to a Class](#)
