## A

### Activity

A Moodle learning activity or resource that can be added to a Class-Site.

## C

### Class, Class-Site

A Moodle/Myplace area used to deliver content / teaching for a programme or module.

### Class Code

See [Module Code](#)

## M

### MBA

Master Business Administration (Degree)

### MSc

Master of Science (Degree)

### Module

A unit of teaching.

### Module class

A [class site](#) that provides a shared space to support a specific module, typically identified by a module-code

### Module Code

An identifier from the University' Class Catalogue that identifies a specific unit of teaching. Typically in the form **XX999**, or **XX9999-1-1-ACADYY-YY**.

Also known as a "class code".

## P

### Programme

A defined programme of study.

### Programme Class, programme-class

A [class site](#) that provides a shared space to support a specific Programme or programmes (including variants of a programme).

All students undertaking a Programme/Programme Variant will be associated with exactly 1 Programme Class.

The Programme class also defines the branding elements, including highlight colour and partner branding options.

### Programme Code

A University code that identifies a specific "programme of study". Typically in the form **99999,9,9**.

### Programme Variant

A version of a programme that differs slightly from a main programme. The difference may be in terms of cohort, branding or both.

## S

### SBS

Strathclyde Business School
